

ROOF MAG	
PART #	DESCRIPTION
J-5013	Widely used for vehicle body applications to hold signals, taxi lights and other signage. 3" x 3" x 1/2" with black PVC surface to reduce marring and scratches. Anodized aluminum backing 1/4" x 5/16 or 1/2" diameter mounting hole available. Test all new applications with a safety line.

FUME HOOD MAGNET	
PART #	DESCRIPTION
J-94033	Our heavy duty magnet for positioning welding fume extraction hoods and ducts. Made from ceramic magnetic material and stainless steel these magnets are indestructible for rugged confined space use. 5/16" mounting stud. Approximate holding force is 200lbs on thick, flat steel.

MAGNA-SWEEPS - We offer a full line-up of magnetic sweepers		
PART #	SIZE	APPLICATION
NP-12	12" x 2"	Hand held use
NP-24	24" x 2"	"Push Broom" style rubber / steel wheels
NP-36	36" x 2"	"Push Broom" style rubber / steel wheels
YS-36	36" x 6"	Yard sweeper - eye bolts for vehicle undermount
YS-48	48" x 6"	Yard sweeper - eye bolts for vehicle undermount
FLS-72	72"	Vehicle tow applications

MAGNETIC PULLEYS
DESCRIPTION
All sizes and applications. Call us with your application and we'll build to suit. Food grade Stainless steel available.

HOPPER MAGNETS	
DESCRIPTION	
A staple of the food and plastics industries and wherever flowing granular material is used. We build these in diameters starting as small as 4" and the sky is the limit. Tube sizes are typically 1" diameter, but larger or smaller diameters can be accommodated. Ceramic, and Rare Earth magnets are used and all food grade stainless is available.	

AIRMAGS	
DESCRIPTION	
One of our most versatile designs. Used in pick and place applications these magnets are activated by pneumatic actuators. Let us know the size of the part and the weight and we can specify a stock or a custom built unit.	

TOOL GRABBER	
PART #	DESCRIPTION
	Vinyl dipped in safety yellow PVC. Capable of 200 lbs + pull. Not for lifting applications, but those times when a retrieval is needed.

BADGE MAGNETS - An industry favourite for almost 20 years. The original name badge magnet with the fully enclosed PVC housing. Two models to suit your needs. Adhesive pads and zinc plated backing steel plates are available to complete the set.	
PART #	APPLICATION
BH-400	Regular duty name badge magnet
BH-500	Heavier / active duty magnet
BH-A	Acrylic adhesive pad
BH-F	Foam adhesive pad
BH-S	Plated steel backing plate
BH-400-C1	A set of 1 each BH-400 magnet, BH-A and BH-S
BH-500-C1	A set of 1 each BH-500 magnet, BH-A and BH-S

Bulk orders are welcomed, we also have a worldwide network of distributors to meet your needs locally. Contact us for details.
